

**REMARKS****Response to Restriction Requirement:**

Applicants acknowledge Examiner's restriction requirement in the Office Action dated November 1, 2007. Examiner has restricted the claims of the Application to two groups:

Group I: claims 1-6, drawn to a catalyst composition; and

Group II: claims 7-13, drawn to an oligomerization process.

Applicants elect to continue prosecution with the Group II claims (claims 7-13), without traverse. Applicants have amended the claims to reflect this election. Applicants reserve the right to prosecute the Group I claims after allowance of the Group II claims.

**Conclusion:**

In view of the election and amendments to the claims, Applicants believe the amended Application is in condition for allowance. No new matter has been added. The number of claims is not in excess of the permitted number of claims.
